# StarBoard Interactive Presentation Software
Bundled with Hitachi interactive projectors

HITACHI
Inspire the Next

Makes collaboration easy, streamlines workflow and improves production.

StarBoard Software is a collaboration, information sharing, and interactive presentation software for professionals. While you would expect to pay hundreds of dollars extra for similar interactive software from the competition, Hitachi bundles it as a standard feature with each interactive projector.

StarBoard Interactive Software

Layout Options
Customize your workspace to suit your specific needs. Work in full-screen mode or add the top menu bar, sidebar tabs, context toolbar, trash can, and page tab for more accessibility.

Custom Toolbar
Expand or collapse the toolbar and adjust its height and orientation based on your preference. Easily add external files and apps to the toolbar, with the option to save it for future use.

Search Engines
Add up to 4 search engines to the software to easily access frequently used sites with search capabilities. Explore topics by selecting a word to seamlessly connect to any search engine.

Image Integration
Search topics with the software's built-in Google™ image search to discover content instantly. Drag and drop images from the world's largest search engine into your whiteboard space.

Smart Pens
Clean up handwritten words by snapping them into text with the text pen. Use the intelli-pen to draw accurate shapes and arrows, or the highlighter pen to hide and reveal annotations.

Conference
Share information with colleagues around the world in real time with the conferencing feature. With a shared whiteboard space, everyone can see, write notes and make changes easily.

Annotate
Whether working with files inside or outside of StarBoard Software, annotating over documents has never been easier when using the software pens to markup digital content.

Import Files
Import Microsoft Office, PDF, and multi-media files into the software, enabling instant markup. Annotate over motion video to add dimension to your digital lectures and presentations.

Accessories
There are a variety of useful accessories within the software for many applications, such as the protractor, compass, spotlight, screen recorder, stopwatch, ruler, and many more.

Virtual Printer
With the "Print to StarBoard" feature, you can transfer any file to your whiteboard pages, markup with digital notes, then save to a variety of file formats, such as JPEG, PDF, or PPT.

Save To Favorites
Develop templates from scratch or edit existing content to save to your favorites folder. Create new folders to manage and organize your digital creations for future use and inspiration.

Dual Pen
With the software's built-in dual pen feature, two colleagues can instantly start working together to markup content with digital ink for freestyle collaboration and brainstorming.
