

# Hitachi Projectors Uplift EastPointe Bible Church's Services

**HITACHI**  
Inspire the Next

## *Product Case Study*

## EastPointe Bible Church, Peru, Indiana

EastPointe Bible Church's 275 parishioners are even more excited to attend weekly services at their church, where hymn lyrics and sermon notes are now standard thanks to two new Hitachi Projectors.

"We use two Hitachi CP-X8150 to project an identical image on two 30-degree walls at the front of the auditorium," said Pastor Phil Bunce, Pastor of Counseling and Head of Business Affairs of EastPointe. "Our seating setup is similar to an arch-style theater and stackable chairs can be arranged in any direction or formation. We typically arrange them in a semi-circle so each side can easily read the lyrics and notes."

EastPointe's previous (non-Hitachi) projectors' color cards melted down last year, after which Pastor Bunce connected with house of worship A/V specialist Shepherd Multimedia. After the recommendation and purchase the Hitachi CP-X8150 projectors were installed a month later. Pastor Bunce cites Hitachi's free lamp promotion as a large influence in his decision making process.

"The projectors have been running for several hours every week and we've had absolutely no failures or problems whatsoever," said Pastor Bunce.

The Hitachi CP-X8150 3LCD projector features 5,000 ANSI lumens brightness and an aspect ratio of 4:3 (XGA).
